

## ESD REPAIR SET

### ► 2290 ESD tool set PROFI repair set 28 pcs

Handy tool flap bag made from dissipative synthetic leather. The bag has a total of 24 rubber loops for holding tools and other parts. Thanks to its design, the tool area can be set up with a Velcro loop, which significantly improves access to the tools. The bag has two press studs that can be connected to a wrist strap and a earthing cable (included), which allows each workstation to be converted to an ESD workstation.

The large support surface (480 x 340 mm) offers enough space to safely handle sensitive electronic components. For transport, the bag can be quickly folded to a handy size and closed with a rubber band.

EPA suitable for electrostatically protected areas (ESD workplaces/ESD protected zones).

Art.-No.	Content
2291	ESD dissipative folding bag 22 empty pockets
4-603	ESD screwdriver slot blade 1.5 x 0.25 x 40 mm
