

## PLASTIC ADJUSTMENT SCREWDRIVERS

### ► Adjustment tools made of plastic

BERNSTEIN manufactures a high-quality, fully insulating synthetic material for adjustment screwdrivers and adjusting keys that is tough and yet elastic. A material made of hard special plastic is also available to meet the highest demands in terms of torsional strength (Art.-No. 1-738 and 1-739).

The following types are available, specifications in mm:

## ADJUSTMENT SCREWDRIVERS WITH BRONZE INSERT

### ► Adjustment tools with bronze insert

BERNSTEIN supplies adjustment screwdrivers and keys with inserts made from resilient hard bronze for cores which are especially difficult to remove. This material has a very precise size accuracy even in the smallest dimensions. Because it is only processed as small cutting tips together with the plastic materials, interference by the resilient bronze is virtually eliminated.

The following types are available, specifications in mm:
