

## ESD tool kit OPERATOR KIT

5 pcs brush, scissor, tweezers, 2 screwdriver

Item No. **2302**

Content: see parts list

### Specification

in dissipative bag

screwdriver with easy turning cap

brush with antistatic bristles

Scissors with dissipative handle

tweezers with dissipative powder coating  
with Velcro fastener

measures 135 x 150 x 25 mm

weight 190 g

### Application and technology

EPA suitable for electrostatically protected areas (ESD workplace / ESD protection zone). Dissipative tool set in lockable imitation leather cases for handling automatic placement machines during operation.

The compact and robust bag made of dissipative imitation leather fits well into any work coat bag. Injuries caused by pointed and loosely inserted tools can thus be prevented. All tools are conductive. With their particularly slim design, the screwdrivers are ideal for narrow spaces and very practical thanks to the swivel cap. Scissors and tweezers are coated with a dissipative powder coating and can therefore also be used on sensitive components without any problems. The brush consists of dissipative plastic up to the bristles and is also particularly slim and handy.

ESD tool kit OPERATOR KIT consists of:

1-150-0-ESD dissipative bag

4-607 ESD screwdriver slot blade 3.0x0.5x60 mm

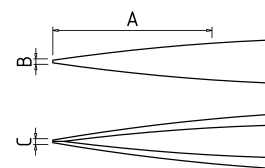

4-623 ESD screwdriver cross-recess PH0

5-078-13 ESD SMD universal tweezers 130 mm form PSF stainless steel dissipative

7-421-1 ESD/EGB brush

5-310-13 ESD scissors rounded dissipative
