

mini side cutters

full flush for soft wire up to Ø 1.0 mm 18 AWG

Item No. 3-0641

Full Flush (without side face, cut completely flush)

Specification

cutting capacity soft/medium/hard/piano Ø in mm: 1.0/0/0/0

head width 10 mm

blade length 10 mm

material tool steel (HRC 56-58)

surface burnished

1-component plastic handle non-slip

length 135 mm

weight 70 g

Application and technology

Electronics side cutter is suitable for soft wires, such as copper or similar uncoated wires, up to Ø 1.0 mm / 18 AWG. This mini side cutter, with very pointed and slightly curved cutting edges, reaches fine wires in the tightest of spaces.

The cutting edges are ground without a cutting edge and leave a flush cut on the wire. Please note that the cutting edges are designed for soft wires; wires or nails that are too firm will damage the cutting edge. The pliers are made of high quality steel with a burnished surface. The ergonomically shaped handles are made of sturdy plastic.
