

screwdriver handle with 1/4 inch magnetic bit holder

Item No. **4-107**
2-component handle

Specification

ergonomically shaped non-slip
blade Ø 10.0 mm
socket SW 6,35 mm (1/4 inch)
material high-quality tool steel

length 120 mm
weight 58 g

Application and technology

The bit magnetic holder handle has a 1/4 inch hexagon socket and can be used with all common hexagonal 1/4 inch bits. It is particularly suitable as a holder for our torque adapters. As an ergonomically shaped multi-component handle made of non-slip plastic, it lies well in the hand and has a practical hanging hole for your workbench.
