Application and technical data

Tweezers for SMD/THT technology, for gripping parts and components such as mini MELFs, diodes, resistors or precise pick-up of filigree wires.

100% stainless steel anti-magnetic, rustproof and acid-resistant, reflection-free matt fine polished. Stainless austenitic chromium nickel quality steel with low carbon content, for good corrosion resistance (not seawater resistant).

Case consisting of ESD imitation leather, EPA suitable for electrostatically protected areas (ESD workplace/ESD protection zone corresponds to standard DIN EN 61340-5-1), dissipative 10^6 Ohm. The leatherette is flame retardant, biocompatible and contains a dissipative Velcro strap to prevent static charge when opening.
